

The Reading Center
DYSLEXIA INSTITUTE OF MN

Professional Development Opportunities

For more than 65 years, The Reading Center has trained adults in the Orton-Gillingham approach – an evidence based strategy to teach struggling readers the skills needed to succeed. OG is multi-sensory, structured, sequential, and involves explicit teaching of language sounds to create phonemic awareness, accurate decoding and automaticity. These strategies are useful in teaching dyslexic students as well as others with insecure reading skills.
